Professional Summary

An experienced and highly motivated frontend engineer with experience obtaining and developing web applications. I have not worked in a professional setting. I am looking for opportunities available to grow my skills and contribute to a team of like-minded individuals.

Education

Bachelor of Science in Information Technology
Specialization in Software Application Programming
Colorado Technical University

Colorado Springs, Colorado

Experience

Company Name

Aug 2016 - Current

Frontend Software Engineer

I am currently working in React, Javascript, HTML, CSS and will begin working on a React e-commerce Website soon. I am open to any and every opportunity available.

Projects

Nasa API

Nasa API Pictures is a JavaScript responsive website. It uses Nasa's API to generate 10 random photos and descriptions from Nasa.

It includes a favorites tab allowing users to save their favorite images to be viewed later and a load more tab allowing users to load 10 random images at a time.

Form Validation

Form Validation is a responsive JavaScript registration app that uses specific standards that gives users feedback if the required fields are not filled out properly.

Technical Skills

Proficient: [Html, CSS, JavaScript, Git] **Familiar:** [React, Python, C#, Java, Django]
